Electrolysis Short Wave Diathermy

Works to destroy the hair by stopping the blood supply to the root.

10 minutes **£13** / 15 minutes **£17**

20 minutes **£22** / 30 minutes **£30**

Consultation is essential before first treatment. Please see aftercare.

Waxing & Electrolysis Aftercare

Sunbeds and other heat treatments cannot be used 24 hours before or after waxing/electrolysis treatments, this may cause the skin to tear or blister. Avoid hot baths and showers for 24 hours after wax/electrolysis treatment. Please consider some skincare/medication such as retinol and acne prescriptions may contain ingredients which may cause the skin to thin so waxing may need to be avoided.

It is also not recommended to go swimming, apply make up, use fake tan or perfumed products for 24 hours after treatment.

Specialist treatments such as aesthetics, semi permanent makeup and microblading also available.
Please ask for more info.
